

E-CAL: Energy Calibration.

A Brief Introduction.

The principles of **E-CAL: Energy Calibration** are derived from an expanded understanding of Ohm's Law. The information on how Ohm's Law is effecting every aspect of your life can be attained by exploring **Ohmslaw.ca**

The preparation for personal growth has three steps.
The first two can be found at **Seniorthinktank.ca**

Step One: You must understand that the process growth requires changes you. If you are not prepared for those changes you will fail at every endeavour. What that change looks like is covered in the book... **Realizing Your Potential.**

Step Two: You must understand why you are not already doing it. The source of your current inaction is covered in the book...
Overcoming The Path Of Least Resistance.

Step Three: Use **E-CAL** to calibrate your energy to The Law regulating flow. **E-CAL** and its corresponding tools can be found in the book
**Ohm's Law Of Life:
The Terms And Conditions Of Existence.**

Do you feel like your life
is just one big wheel
with days blurring into weeks
as the years of your life slip away?

Do the activities of your life
seem like a bunch of plates
you are trying to keep spinning?

Do you constantly worry
about how long
you can maintain everything
before it all comes crashing
down around you?

Does life feel like
a constant struggle,
or futile exercise
that never ends?

Do you even know
what mountain you are
trying to climb
and why you are doing it?

Do you feel like
you are in charge of your life?

Do you know who you are?
Do you know what you are?
Do you know why are you here?
Do you know what you want?

Do you have a plan?

Our philosophy is...

If the entire universe is energy
and matter is simply concentrated energy,
than The Law governing energy
must be governing everything.

Let us show you how...

There is a Secret Order that lays hidden behind
everything that happens in the world.

It is The Divine Pattern that is....

Cause, Effect, Result.
Problem, Reaction, Solution.
Resistance, Current, Potential.

Ohm's Law Of Life:

The Terms And Conditions
Of Existence.

E-CAL
Energy Calibration

Your User Agreement.

Everyday, all over the world,
you can hear people say...

“I am trying to reach my Potential”

“I never established my Potential.”

“If circumstance had been different
I could have Realized My Potential.”

Potential and Resistance are two of the most
over and miss used worlds in the world...

But what are they?
What do they really mean
and what do they have to do with each other?

E-CAL is an expanded understanding of Ohm’s Law Of Resistance.

Ohm’s Law is the law that explain the relationship between
Potential Difference, Current and Resistance.

Released in 1827 Ohm’s Law forever changed the planet.
Without it electricity can not be delivered over a distance
and electrical devices can not be powered.

In 2001 researchers for Seniorthinktank.ca began applying Ohm’s Law
to fields of study other than electricity.

By doing so many tremendous discoveries were made.

The **E-CAL** system is the result
of applying Ohm’s Law to “experience”.

Let us show you how the same formula that allowed electricity to be delivered
also holds to key to Realizing Your Potential.

Are you willing to move or will you spend your life
only thinking about change?

A dream without a plan is just a wish.
A plan with a deadline becomes a goal.
Taking the necessary actions and pushing through
all the obstacles the plan requires manifests goals into reality.

Do you know how to set goals and prioritize actions?
Do you know what the seven aspects of your life
that require focus are?

Do you actually know what FOCUS is
and how it relates to Potential and Resistance?

Most people have some aspect of their life
that they would like to change.
But, are you actually willing to change?

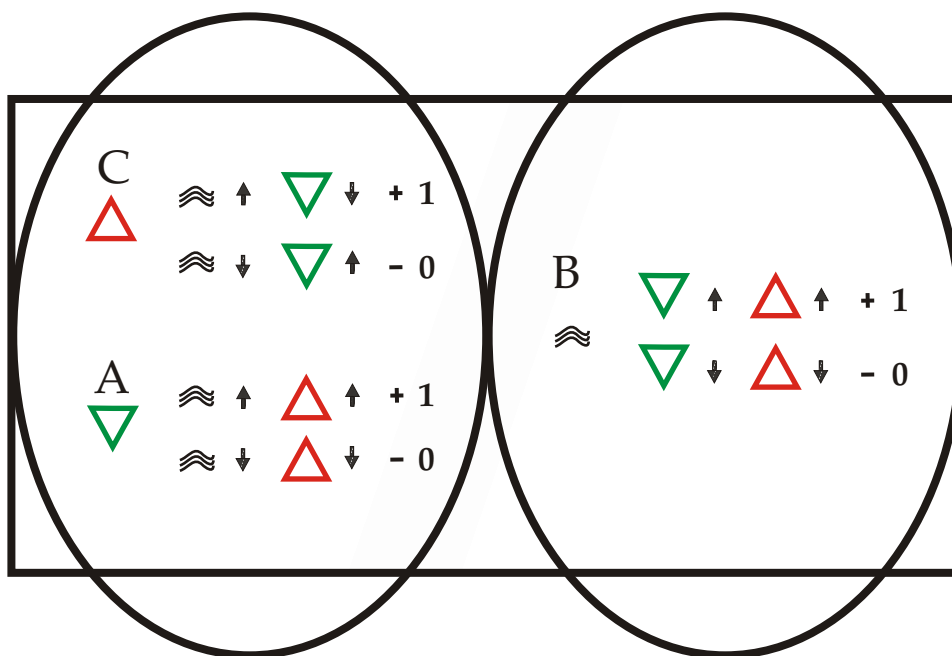

The majority of people willing to change, fail; because
no one has explained the rules of change to them!

Do you want more out of life?
 Are you ready to start moving in a new direction?

The advanced understanding of Ohm's Law
 is the real reason why you do what you do.

Would you like to take the first step
 toward learning what Ohm's Law requires of you?

It is only by getting in tune with Ohm's Law
 that you can realize your Potential
 and change your circumstance.

E-CAL does not tell you what to do. It tells you why life is the way it is
 and what you will be required to do to Realize Your Potential.

What Exactly Is **E-CAL**?

E-CAL Energy Calibration is not a "Secret Of Success" Program.

E-CAL tools work like a tuner that harmonizes you with the Natural Law regulating activity and Expansion Of Potential.

You Can't Succeed In Life If You Don't Know The Rules.

Participants use **E-CAL** to refocus actions so they can realize objectives and achieve their goals.

Have you ever looked around your community and wondered...

Why do so many people refuse to move?

Is that person someone you know?
Is it you?

Life is a dance of energy.
Would you like to learn the steps?

Are you willing to move?

There is a gift that lies at the end of the Resistance path.
It is the increased Potential that only comes from doing things exactly as Ohm's Law Of Resistance demands.

Let Seniorthinktank.ca Show You How.
